Proper Citation: Wallac: 1450 Liquid Scintillation Counter (RRID:SCR_020878)

Description: Wallac 1450 MicroBeta is a liquid scintillation counter and luminescence detector that can accommodate either 1, 2, 3, 6, or 12 detectors, each of which can count in 96- and 24- or 96- and 384-well plate formats. Samples may be counted in microplates, tubes, or on filters for added flexibility. The counter features dual photomultiplier tubes (PMT), with the first PMT set over the sample and the second located below. This method of coincidence counting provides optimal productivity for any compatible assay, including proximity and filtration assays among others.

Resource Type: instrument resource

Keywords: Wallac, Liquid Scintillation Counter, Instrument Equipment, USEDit

Availability: Commercially available

Resource Name: Wallac: 1450 Liquid Scintillation Counter

Resource ID: SCR_020878

Alternate IDs: Model_Number_1450

Record Creation Time: 20220129T080352+0000

Record Last Update: 20260808T190156+0000

Ratings and Alerts

No rating or validation information has been found for Wallac: 1450 Liquid Scintillation Counter.

No alerts have been found for Wallac: 1450 Liquid Scintillation Counter.
