Proper Citation: Sanford Burnham Prebys Medical Discovery Institute Proteomics Core Facility (RRID:SCR_022225)

Description: Facility provides mass spectrometry based proteomics services with methods tailored to needs of scientific investigators for routine mass spectrometric analysis of peptides and proteins, identification of novel proteins, characterization of post translational modifications, and quantitative proteomics analysis of simple to complex biological samples. Core identifies, validates and develops new methods designed for characterization and identification of biologically important proteins. Supports users with software applications and development, data analysis and experimental design of proteomics studies. Expands its capabilities in large scale differential proteomics analysis and phosphoproteomics for unbiased discovery of potential biomarkers and mapping protein profiles.

Synonyms: Sanford Burnham Medical Research Institute Proteomics, Proteomics

Resource Type: core facility, access service resource, service resource

Keywords: USEdit, ABRF, mass spectrometry based proteomics services, mass spectrometric analysis, quantitative proteomics

Availability: open

Resource Name: Sanford Burnham Prebys Medical Discovery Institute Proteomics Core Facility

Resource ID: SCR_022225

Alternate IDs: ABRF_449

Alternate URLs: <https://coremarketplace.org/?FacilityID=449>

Record Creation Time: 20220506T050143+0000

Record Last Update: 20260808T190656+0000

Ratings and Alerts

No rating or validation information has been found for Sanford Burnham Prebys Medical Discovery Institute Proteomics Core Facility.

No alerts have been found for Sanford Burnham Prebys Medical Discovery Institute Proteomics Core Facility.
