Proper Citation: Ottawa Hospital Research Institute Flow Cytometry and Cell Sorting Core Facility (RRID:SCR_023349)

Description: Facility, located at General Campus of Ottawa Hospital, was established in 1998 and now includes three flow cytometers, two of which have sorting capabilities. Offers sorting precision required for isolation of rare cell populations with high purity and yield, up to 20 000 events per second. Allows simultaneous analysis of variety of light scatter and fluorescence parameters on single cells.

Synonyms: OHRI-Flow Cytometry & Cell Sorting Facility

Resource Type: core facility, access service resource, service resource

Keywords: USEDit, ABRF, low cytometry, cell sorting, simultaneous analysis, light scatter, fluorescence parameters, single cell

Availability: Open

Resource Name: Ottawa Hospital Research Institute Flow Cytometry and Cell Sorting Core Facility

Resource ID: SCR_023349

Alternate IDs: ABRF_1694

Alternate URLs: <https://coremarketplace.org/?FacilityID=1694&citation=1>

Record Creation Time: 20230309T050241+0000

Record Last Update: 20260808T190658+0000

Ratings and Alerts

No rating or validation information has been found for Ottawa Hospital Research Institute Flow Cytometry and Cell Sorting Core Facility.

No alerts have been found for Ottawa Hospital Research Institute Flow Cytometry and Cell Sorting Core Facility.
