Proper Citation: University of British Columbia MRI Research Core Facility (RRID:SCR_025374)

Description: Facility consist of Philips 3.0 Tesla MRI scanner for studies on humans, Bruker small bore 9.4 Tesla MRI scanner, and computing facility for image archival and analysis. Scanners are entirely dedicated to research, and MR scanning is carried out on cost recovery basis. The scanners were selected to cater to a very broad range of in vivo applications and the Imaging Centre staff is trained to support any research projects that the scanners can accommodate.

Synonyms: , UBC MRI Research, University of British Columbia UBC MRI Research

Resource Type: core facility, access service resource, service resource

Keywords: ABRF, MRI,

Resource Name: University of British Columbia MRI Research Core Facility

Resource ID: SCR_025374

Alternate IDs: ABRF_2797

Alternate URLs: <https://coremarketplace.org/?FacilityID=2797&citation=1>

Record Creation Time: 20240525T053230+0000

Record Last Update: 20260808T190723+0000

Ratings and Alerts

No rating or validation information has been found for University of British Columbia MRI Research Core Facility.

No alerts have been found for University of British Columbia MRI Research Core Facility.
