African Population Ontology

RRID:SCR_026919

Type: Tool

Proper Citation

African Population Ontology (RRID:SCR_026919)

Resource Information

URL: <https://obofoundry.org/ontology/afpo.html>

Proper Citation: African Population Ontology (RRID:SCR_026919)

Description: AfPO is an ontology that can be used in the study of diverse populations across Africa. It brings together publicly available demographic, anthropological and genetic data relating to African people in standardised and structured format. AfPO can be employed to classify African study participants comprehensively in prospective research studies. It can also be used to classify past study participants by mapping them using language or ethnicity identifier or synonyms.

Abbreviations: AfPO

Resource Type: ontology, data or information resource, controlled vocabulary

Keywords: African people, classify African study participants, ontology, study of diverse populations across Africa, language or ethnicity identifier,

Availability: Free, Freely available

Resource Name: African Population Ontology

Resource ID: SCR_026919

Record Creation Time: 20250513T055331+0000

Record Last Update: 20260808T190754+0000
