Proper Citation: Cleveland Clinic Lerner Research Institute Electron Microscopy Core Facility (RRID:SCR_027161)

Description: Transmission (TEM), Scanning (SEM), 2D tile scanning SEM and 3DSEM electron microscopy are available in the Core for imaging and analyzing specimens at the ultrastructural level. Possible samples include fresh tissue specimens, cultured cells growing on a substrate, cells in suspension or subcellular fractions (for purity determinations). Sub-cellular localization of antigens within cells by immunogold labeling can be performed, as well as negative staining for visualizing samples such as microparticles and exosomes. Elemental analysis (EDAX) is also available together with SEM.

Resource Type: core facility, service resource, access service resource

Keywords: ABRF, Transmission (TEM), Scanning (SEM), 2D tile scanning, SEM, 3DSEM, electron microscopy,

Resource Name: Cleveland Clinic Lerner Research Institute Electron Microscopy Core Facility

Resource ID: SCR_027161

Alternate IDs: ABRF_3282
