ddCt

RRID:SCR_003396

Type: Tool

Proper Citation

ddCt (RRID:SCR_003396)

Resource Information

URL: <http://www.bioconductor.org/packages/release/bioc/html/ddCt.html>

Proper Citation: ddCt (RRID:SCR_003396)

Description: Software package providing an approximation method to determine relative gene expression with quantitative real-time PCR (qRT-PCR) experiments. It requires no standard curve for each primer-target pair, therefore reducing the working load and yet returning accurate enough results as long as the assumptions of the amplification efficiency hold. The package implements a pipeline to collect, analyze and visualize qRT-PCR results, for example those from TaqMan SDM software, mainly using the ddCt method. The pipeline can be either invoked by a script in command-line or through the API consisting of S4-Classes, methods and functions.

Abbreviations: ddCt

Synonyms: Delta-Delta-Ct

Resource Type: software resource

Keywords: differential expression, gene expression, microtitre plate assay, q-pcr

Availability: Free, Available for download, Freely available

Resource Name: ddCt

Resource ID: SCR_003396

Alternate IDs: OMICS_02312

Record Creation Time: 20220129T080218+0000

Record Last Update: 20260912T195557+0000

Ratings and Alerts

No rating or validation information has been found for ddCt.

No alerts have been found for ddCt.
