Phenotree

RRID:SCR_003591

Type: Tool

Proper Citation

Phenotree (RRID:SCR_003591)

Resource Information

URL: <http://bejerano.stanford.edu/phenotree/>

Proper Citation: Phenotree (RRID:SCR_003591)

Description: Web server to search for genes involved in given phenotypic difference between mammalian species. The mouse-referenced multiple alignment data files used to perform the forward genomics screen is also available. The webserver implements one strategy of a Forward Genomics approach aiming at matching phenotype to genotype. Forward genomics matches a given pattern of phenotypic differences between species to genomic differences using a genome-wide screen. In the implementation, the divergence of the coding region of genes in mammals is measured. Given an ancestral phenotypic trait that is lost in independent mammalian lineages, it is shown that searching for genes that are more diverged in all trait-loss species can discover genes that are involved in the given phenotype.

Abbreviations: Phenotree

Synonyms: Forward Genomics - Phenotree server, Forward Genomics - Phenotree search

Resource Type: data or information resource, data set, service resource

Defining Citation: [PMID:23022484](#)

Keywords: gene, genotype, phenotype, alignment, trait, genome, alignment

Availability: Acknowledgement requested, Non-commercial, Free for personal use, [Http://stanford.edu/site/terms.html](http://stanford.edu/site/terms.html)

Resource Name: Phenotree

Resource ID: SCR_003591

Alternate IDs: nlx_157736

Record Creation Time: 20220129T080219+0000

Record Last Update: 20260912T195600+0000
