Description: International Mental Health Research Organization (IMHRO) is a 501(c)3 organization committed to raising awareness and funding research to find preventions and cures for schizophrenia, depression and bipolar disorder within a generation. We are families and individuals whose lives have been touched by these brain diseases and who have seen how far mental health research has come in the last decade. Contributors to IMHRO have played a major part. The \$135 million they have helped to raise has funded stunning scientific discoveries to help people now and tomorrow.
