Proper Citation

Central England Haemato-Oncology Research Biobank (RRID:SCR_004637)

Resource Information

URL: <http://www.bwhct.nhs.uk/wmrgl/biobank-cehrb>

Proper Citation: Central England Haemato-Oncology Research Biobank (RRID:SCR_004637)

Description: The Central England Haemato-Oncology Research Biobank stores excess material from oncology samples referred for diagnostic testing and disease monitoring at the West Midlands Regional Genetics Laboratory (WMRGL). The bank is housed within the WMRGL. Types of material stored include viable cells, fixed cell suspensions, DNA, RNA / cDNA, and plasma. The material is made available to all cancer research groups both locally and nationally. Excess sample (mainly from blood and bone marrow) is stored from diagnostic patient material and from samples received throughout their disease course. The WMRGL serves a population of about 5.5 million and is the largest UK NHS genetic Lab. Due to the large patient population CEHRB is able to collate sufficient research material from all classifications of neoplastic haematological disorders including those that are rare.

Abbreviations: CEHRB

Synonyms: Central England Haemato-Oncology Research Biobank (CEHRB)

Resource Type: biomaterial supply resource, cell repository, material resource

Keywords: rare, ontology, hematology, tumor, oncology

Related Condition: Cancer, Neoplastic hematological disorder

Availability: Public: The material is made available to all cancer research groups both locally and nationally.

Resource Name: Central England Haemato-Oncology Research Biobank

Resource ID: SCR_004637
