Proper Citation: Competence Network Heart Failure (RRID:SCR_004979)

Description: Association of physicians, scientists, academics, research institutes and self-help groups that provides and nurtures interdisciplinary cooperation between research and primary, secondary and tertiary health care. Many internationally renowned heart failure researchers and working groups live and work in Germany. Nevertheless, there is insufficient cooperation of the respective working groups and research projects in this area. In order to remain internationally competitive in the heart failure research community, excellent implementation of large scale clinical and genetic trials is indispensable. Further, deficits in the effective presentation and transfer of research findings into clinical practice need to be addressed. An adequate translation of guidelines into practical, tangible instructions can facilitate clinical practice both in primary and tertiary care fundamentally. The need for action to address the research-practice-gap is obvious.

Abbreviations: CNHF

Synonyms: German Competence Network Heart Failure

Resource Type: community building portal, data or information resource, portal, topical portal

Keywords: heart failure, cardiology, clinical, genetic, genetic trial, clinical trial

Funding: German Federal Ministry of Research and Education

Resource Name: Competence Network Heart Failure

Resource ID: SCR_004979

Alternate IDs: nlx_143991

Old URLs: <http://www.knhi.de/en/Network/index.jsp>

Record Creation Time: 20220129T080227+0000

Record Last Update: 20260815T182256+0000
