Proper Citation: Scholarly Electronic Publishing Bibliography (RRID:SCR_005949)

Description: Bibliography with over 3,800 selected English-language articles, books, and other printed and electronic sources that are useful in understanding scholarly electronic publishing efforts on the Internet. It covers a wide range of topics, such as digital copyright, digital libraries, digital preservation, digital repositories, e-books, e-journals, license agreements, metadata, and open access. It includes Scholarly Electronic Publishing Resources, a selective directory of related Web sites, and the Scholarly Electronic Publishing Weblog, a frequently updated list of new publications and other resources that may be of interest to bibliography readers. Most sources have been published from January 1, 1990 through October 30, 2011; however, a limited number of earlier key sources are also included. The bibliography includes links to freely available versions of included works. It does not include digital media works (such as MP3 files), editorials, e mail messages, letters to the editor, daily newspaper articles, presentation slides or transcripts, or weblog postings. An archive of prior versions of SEPB is available as a downloadable compressed file (.zip) that includes all versions of the bibliography. The Scholarly Electronic Publishing Bibliography 2010 is available as a paperback (466 pages, \$18.95, ISBN-10: 1456453289 and ISBN-13: 9781456453282) and an open access PDF file.
