

Resource Summary Report

Generated by SPARC SAWG on Sep 17, 2026

OBO

RRID:SCR_007083

Type: Tool

Proper Citation

OBO (RRID:SCR_007083)

Resource Information

URL: <http://www.obofoundry.org/>

Proper Citation: OBO (RRID:SCR_007083)

Description: A collaboration involving developers of science-based ontologies who are establishing a set of principles for ontology development with the goal of creating a suite of orthogonal interoperable reference ontologies in the biomedical domain. In addition to a listing of OBO ontologies, this site provides a statement of the OBO Foundry principles, discussion fora, technical infrastructure, and other services to facilitate ontology development. Feedback is welcome and participation encouraged.

Abbreviations: OBO

Synonyms: The Open Biomedical Ontologies, OBO Foundry, Open Biological and Biomedical Ontologies, Open Biological and Biomedical Ontology Foundry

Resource Type: controlled vocabulary, data or information resource, knowledge environment, narrative resource, ontology, standard specification

Defining Citation: [PMID:17989687](#)

Keywords: biomedical, metadata standard, gold standard, FASEB list

Resource Name: OBO

Resource ID: SCR_007083

Alternate IDs: nlx_22892

Record Creation Time: 20220129T080239+0000

Record Last Update: 20260912T195649+0000

Ratings and Alerts

No rating or validation information has been found for OBO.

No alerts have been found for OBO.

Data and Source Information

Source: [SciCrunch Registry](#)

Usage and Citation Metrics

We found 182 mentions in open access literature.

Listed below are recent publications. The full list is available at [SPARC SAWG](#).

Vogt L, et al. (2025) The CLEAR Principle: organizing data and metadata into semantically meaningful types of FAIR Digital Objects to increase their human explorability and cognitive interoperability. *Journal of biomedical semantics*, 16(1), 18.

Vogt L, et al. (2025) Suggestions for extending the FAIR Principles based on a linguistic perspective on semantic interoperability. *Scientific data*, 12(1), 688.

Smith JR, et al. (2025) Standardized pipelines support and facilitate integration of diverse datasets at the Rat Genome Database. *Database : the journal of biological databases and curation*, 2025.

Bueckle A, et al. (2025) Construction, Deployment, and Usage of the Human Reference Atlas Knowledge Graph for Linked Open Data. *bioRxiv : the preprint server for biology*.

Bono H, et al. (2025) Recent Advances in Genome Editing and Bioinformatics: Addressing Challenges in Genome Editing Implementation and Genome Sequencing. *International journal of molecular sciences*, 26(7).
