Proper Citation: National Institutes of Health Stem Cell Tables (RRID:SCR_008359)

Description: Data tables providing an overview of information about stem cells that have been derived from mice and humans. The tables summarize published research that characterizes cells that are capable of developing into cells of multiple germ layers (i.e., multipotent or pluripotent) or that can generate the differentiated cell types of another tissue (i.e., plasticity) such as a bone marrow cell becoming a neuronal cell. The tables do not include information about cells considered progenitor or precursor cells or those that can proliferate without the demonstrated ability to generate cell types of other tissues. The tables list the tissue from which the cells were derived, the types of cells that developed, the conditions under which differentiation occurred, the methods by which the cells were characterized, and the primary references for the information.

Abbreviations: NIH Stem Cells

Resource Type: data or information resource, data set

Keywords: ectoderm, endoderm, adipocyte, astrocyte, bone marrow, brain, cardiac, chondrocyte, differentiation, germ layer, hematopoietic stem cell, human, liver, mesenchymal stem cell, mesoderm, mouse, muscle, neuron, neuronal, osteoblast, pancreas, plasticity, platelet, red blood cell, skeletal, skin, spinal cord, neural stem cell, tenocyte, tissue, white blood cell, stem cell, multipotent stem cell, pluripotent stem cell, embryonic stem cell, embryonic primordial germ cell, primordial germ cell, neural progenitor cell, mesenchymal progenitor cell

Funding: NIH

Resource Name: National Institutes of Health Stem Cell Tables

Resource ID: SCR_008359

Alternate IDs: nif-0000-25459

Old URLs: <http://stemcells.nih.gov/info/scireport/appendixD.asp>

Record Creation Time: 20220129T080247+0000

Record Last Update: 20260912T200317+0000

Ratings and Alerts

No rating or validation information has been found for National Institutes of Health Stem Cell Tables.

No alerts have been found for National Institutes of Health Stem Cell Tables.
