Description: Portal to resources, expertise, and best practices for investigators, study staff, participants and partners/affiliates to facilitate efficient, compliant and ethical study conduct and management. This collaborative effort across a number of organizations and administrative units was built to leverage existing resources and create new content where readily accessible resources currently don't exist. The goals of the HUB are to: * Promote excellence in the quality of clinical research management through education. * Facilitate effective and timely clinical research initiation by improving institutional processes and providing clinical research protocol, regulatory, budget, and financial tools. * Increase awareness of clinical trials in the community through education and community participant recruitment outreach activities. * Interface with institutional/industry partners to support enhanced clinical research practice.
