Proper Citation: MGH Cell Tissue and Organ Resource Core (RRID:SCR_009920)

Description: Core facility that provides the following services: Fresh hepatocytes in suspension, Plated hepatocytes, Cryopreserved hepatocytes, Custom hepatocyte isolations, Decellularized whole rat livers. The mission of the Cell Resource Core (CRC) is to provide high quality primary cells and tissues to researchers reliably and affordably. Leveraging a new MGH technology that significantly increases the viable yield of high quality hepatocytes from human and animal donor livers, we are initially offering hepatocytes to the research community.

Resource Type: access service resource, core facility, service resource

Keywords: cell enrichment

Resource Name: MGH Cell Tissue and Organ Resource Core

Resource ID: SCR_009920

Alternate IDs: nlx_156386

Record Creation Time: 20220129T080255+0000

Record Last Update: 20260912T200324+0000

Ratings and Alerts

No rating or validation information has been found for MGH Cell Tissue and Organ Resource Core.

No alerts have been found for MGH Cell Tissue and Organ Resource Core.
