Proper Citation: ImmuneSpace (RRID:SCR_010508)

Description: A consortium of university groups to characterize human immune populations. The Human Immunology Project Consortium (HIPC) program, established in 2010 by the NIAID Division of Allergy, Immunology, and Transplantation, is a major collaborative effort that is generating large amounts of cross-center and cross-assay data including high-dimensional data to characterize the status of the immune system in diverse populations under both normal conditions and in response to stimuli. This large data problem has given birth to ImmuneSpace, a powerful data management and analysis engine where datasets can be easily explored and analyzed using state-of-the-art computational tools.

Synonyms: immune space, Immunespace.org

Resource Type: portal, data or information resource, organization portal

Keywords: immunology

Funding: NIAID

Resource Name: ImmuneSpace

Resource ID: SCR_010508

Alternate IDs: nlx_158717

Record Creation Time: 20220129T080259+0000

Record Last Update: 20260807T042738+0000

Ratings and Alerts

No rating or validation information has been found for ImmuneSpace.

No alerts have been found for ImmuneSpace.
