Comparative Fungal Genomics Platform

RRID:SCR_012910

Type: Tool

Proper Citation

Comparative Fungal Genomics Platform (RRID:SCR_012910)

Resource Information

URL: <http://cfgp.riceblast.snu.ac.kr/main.php>

Proper Citation: Comparative Fungal Genomics Platform (RRID:SCR_012910)

Description: The CFGP (Comparative Fungal Genomics Platform) was designed for comparative genomics projects with diverse fungal genomes. The CFGP provides important bioinformatic tools, such as BLAST search, ClustalW analysis, InterPro Scan, SignalP, and PSORT2, which are very common tools for the researchers in the field of genomics. Many of them have been executed in the unix environment, so some specific computing knowledge is required. In the CFGP, users can use these tools simply by clicking their mouse button. In addition, all of the results of the analysis will be stored in the CFGP, so you can easily share those results with other members.

Synonyms: CFGP

Resource Type: data or information resource, database

Keywords: fungal genome, comparative genomics, genomics

Resource Name: Comparative Fungal Genomics Platform

Resource ID: SCR_012910

Alternate IDs: nif-0000-02653

Alternate URLs: <http://cfgp.snu.ac.kr>

Record Creation Time: 20220129T080313+0000

Record Last Update: 20260912T200208+0000

Ratings and Alerts

No rating or validation information has been found for Comparative Fungal Genomics Platform.

No alerts have been found for Comparative Fungal Genomics Platform.
