### Resource Information

**URL:** <http://xin.cz3.nus.edu.sg/group/trmp/trmp.asp>

**Proper Citation:** Therapeutically Relevant Multiple Pathways Database (RRID:SCR\_013471)

**Description:** The Therapeutically Relevant Multiple Pathways Database is designed to provide information about such multiple pathways and related therapeutic targets described in the literatures, the targeted disease conditions, and the corresponding drugs/ligands directed at each of these targets. This database currently contains 11 entries of multiple pathways, 97 entries of individual pathways, 120 targets covering 72 disease conditions along with 120 sets of drugs directed at each of these targets. Each entry can be retrieved through multiple methods including multiple pathway name, individual pathway name and disease name. Additional information provided include protein name, synonyms, Swissprot AC number, species, gene name and location, protein sequence (AASEQ) and gene sequence (NTSEQ) as well as potential therapeutic implications while applicable. Cross-links to other databases are provided which include Genecard, GDB, Locuslink, NCBI, KEGG, OMIM, SwissProt to facilitate the access of more detailed information about various aspects of the particular target or non-target protein. Queries can be submitted by entering or selecting the required information in any one or combination of the fields in the form. User can specify full name or any part of the name in a text field, or choose one item from an selection field. Sponsors: TRMP is supported by the National University of Singapore.

**Synonyms:** TRMP

**Resource Type:** data or information resource, database

**Keywords:** drug, gene, condition, disease, intermolecular interactions and signaling pathways databases, ligand, literature, location, pathway, protein, sequence, specie, target, therapeutic, therapy

**Resource Name:** Therapeutically Relevant Multiple Pathways Database

**Resource ID:** SCR\_013471

**Alternate IDs:** nif-0000-21402

**Record Creation Time:** 20220129T080316+0000

**Record Last Update:** 20260729T044330+0000

---

## Ratings and Alerts

No rating or validation information has been found for Therapeutically Relevant Multiple Pathways Database.

No alerts have been found for Therapeutically Relevant Multiple Pathways Database.
