## Preventing Early Renal Loss in Diabetes (PERL)

RRID:SCR\_015862

Type: Tool

---

### Proper Citation

Preventing Early Renal Loss in Diabetes (PERL) (RRID:SCR\_015862)

---

### Resource Information

**URL:** <http://www.perl-study.org>

**Proper Citation:** Preventing Early Renal Loss in Diabetes (PERL) (RRID:SCR\_015862)

**Description:** PERL is a clinical trial for people with type 1 diabetes who have early signs of kidney problems. Its goal is to test a new way to reduce loss of kidney function using a safe and inexpensive medicine.

**Abbreviations:** PERL

**Synonyms:** Preventing Early Renal Loss in Diabetes

**Resource Type:** data or information resource, data set, disease-related portal, portal, project portal, topical portal

**Keywords:** kidney, type 1 diabetes, diabetes, clinical trial, medication

**Related Condition:** Type 1 diabetes, Diabetes, Diabetic kidney disease

**Funding:** NIDDK UC4 DK101108

**Availability:** Available to the scientific community

**Resource Name:** Preventing Early Renal Loss in Diabetes (PERL)

**Resource ID:** SCR\_015862

**Record Creation Time:** 20220129T080327+0000

**Record Last Update:** 20260912T195831+0000

---

### Ratings and Alerts

No rating or validation information has been found for Preventing Early Renal Loss in Diabetes (PERL).

No alerts have been found for Preventing Early Renal Loss in Diabetes (PERL).
