Proper Citation: LabChart Reader (RRID:SCR_017551)

Description: LabChart data analysis software creates a platform for all of your recording devices to work together, allowing you to acquire biological signals from multiple sources simultaneously and apply advanced calculations and plots as your experiment unfolds. LabChart Reader is free version of software that allows to analyse with some limitations. LabChart Reader doesn't allow saving of data - export image only. Has data pad for analysis.

Synonyms: LabChart Reader software 8.1, LabChart Reader software

Resource Type: software resource, software application, data analysis software, data processing software

Keywords: Adinstruments, LabChart, data, analysis, calculation, plot

Resource Name: LabChart Reader

Resource ID: SCR_017551
