Proper Citation: Signac (RRID:SCR_021158)

Description: Software framework for analysis of single cell chromatin data. Used for analysis, interpretation, and exploration of single cell chromatin datasets including datasets that co-assay DNA accessibility with gene expression, protein abundance, and mitochondrial genotype. Analysis of single-cell chromatin data including peak calling, quantification, quality control, dimension reduction, clustering, integration with single-cell gene expression datasets, DNA motif analysis, and interactive visualization.

Resource Type: data analysis software, data processing software, software application, software resource

Defining Citation: [DOI:10.1101/2020.11.09.373613](https://doi.org/10.1101/2020.11.09.373613)

Keywords: Single cell chromatin data, single cell multimodal analysis, peak calling, quantification, quality control, dimension reduction, clustering, integration with single-cell gene expression datasets, DNA motif analysis, interactive visualization

Availability: Free, Available for download, Freely available

Resource Name: Signac

Resource ID: SCR_021158
