Proper Citation: University of Miami Sylvester Comprehensive Cancer Center Behavioral and Community Based Research Shared Resource Core Facility (RRID:SCR_022893)

Description: Provides services and expertise that facilitate behavioral, psychosocial, community, translational, and population based oncology research. Services include coordinating recruitment and retention of diverse study participants representative of Sylvester South Florida catchment area; supporting development of culturally and linguistically tailored study materials; facilitating data collection and management, including for biospecimens, in clinical and community setting; assisting with development and delivery of evidence based interventions across cancer continuum from prevention to survivorship; offering, seminars, workshops and training. Offers consultation on culturally appropriate approaches for study implementation and provides translation of study materials into Spanish and/or Haitian Creole. Engages diverse stakeholders throughout South Florida in dialogue about cancer prevention and collaborative research opportunities.
