Resource Information

URL: <https://www.mskcc.org/research/ski/core-facilities/molecular-cytology>

Proper Citation: Memorial Sloan Kettering Cancer Center Molecular Cytology Core Facility (RRID:SCR_027802)

Description: Core delivers specialized histology, microscopy, and cytogenetics services for detection in situ (cells, tissue sections, organoids, and whole mounts) of biomarkers (proteins, glycoproteins, lipids, nucleic acids) and molecular processes in normal and pathological conditions. Performs comprehensive antibody validation on cells and tissues, trains investigators in basic staining principles and assists with experimental assay design and downstream analysis. Core maintains four whole-slide scanners and provides support for quantitative whole-slide analysis. Microscopy and dedicated image analysis staff provide support for simple or complex analysis pipelines.

Resource Type: access service resource, core facility, service resource

Keywords: ABRF, histology, microscopy, cytogenetics, services

Resource Name: Memorial Sloan Kettering Cancer Center Molecular Cytology Core Facility

Resource ID: SCR_027802

Alternate IDs: ABRF_5703

Alternate URLs: https://coremarketplace.org/RRID:SCR_027802/?citation=1

Record Creation Time: 20251216T055148+0000

Record Last Update: 20260912T200536+0000

Ratings and Alerts

No rating or validation information has been found for Memorial Sloan Kettering Cancer Center Molecular Cytology Core Facility.

No alerts have been found for Memorial Sloan Kettering Cancer Center Molecular Cytology Core Facility.
