Proper Citation: Memorial Sloan Kettering Cancer Center Nuclear Magnetic Resonance (Analytical) Core Facility (RRID:SCR_027804)

Description: Core provides analytical services, access and education for analytical instrumentation and related shared scientific resources. Instrumentation includes high field nuclear magnetic resonance, mass spectrometry and optical spectroscopic instruments. Facility offers investigators the ability to monitor chemical reactions, analysis for determination of molecular structure, chemical mechanisms, purity, stability, biological uptake and other properties of chemical compounds.

Resource Type: access service resource, core facility, service resource

Keywords: ABRF, analytical services, access and education for analytical instrumentation, high field nuclear magnetic resonance, mass spectrometry, optical spectroscopy,
