Proper Citation: Donald Danforth Plant Science Center Field Research Site Core Facility
(RRID:SCR_027897)

Description: Field Research Site is a core facility providing scientists with advanced field research infrastructure and crop management capabilities. Offers diverse agricultural practices including full tillage, no-till systems, irrigation, precision spraying, and plot planting for row crops and specialty crops. On-site resources include multiple drying rooms, walk-in freezers, and dedicated processing spaces for soil, tissue, and seed samples.

Synonyms: Field Research Site

Resource Type: access service resource, core facility, service resource

Keywords: ABRF, field research infrastructure, crop management, drying rooms, walk-in freezers, processing spaces, soil, tissue, seed

Resource Name: Donald Danforth Plant Science Center Field Research Site Core Facility

Resource ID: SCR_027897
