SAMBLASTER (RRID:SCR_000468)

Resource Information

URL: https://github.com/GregoryFaust/samblaster

Description: A software tool to mark duplicates and extract discordant and split reads from SAM files. This fast and flexible program for marking duplicates in read-id grouped paired-end SAM files can also optionally output discordant read pairs and/or split read mappings to separate SAM files, and/or unmapped/clipped reads to a separate FASTQ file. When marking duplicates, samblaster will require approximately 20MB of memory per 1M read pairs.

Resource Name: SAMBLASTER

Proper Citation: SAMBLASTER (RRID:SCR_000468)

Resource Type: Resource, software resource

Keywords: standalone software, c++

Resource ID: SCR_000468

Parent Organization: University of Virginia; Virginia; USA

References: PMID: 24812344

Availability: MIT License

Website Status: Last checked up

Alternate IDs: OMICS_04682

Mentions Count: 4
No rating or validation information has been found for SAMBLASTER.

No alerts have been found for SAMBLASTER.
