Feinstein Biorepository

RRID:SCR_000535

Type: Tool

Proper Citation

Feinstein Biorepository (RRID:SCR_000535)

Resource Information

URL: <http://www.feinsteininstitute.org/Feinstein/Biorepository>

Proper Citation: Feinstein Biorepository (RRID:SCR_000535)

Description: The Biorepository was designed to collect, process, and distribute large numbers of high quality research specimens quickly and efficiently. The data that is collected is primarily human DNA from whole blood along with other human specimen types. The data are collected, processed, stored and later distributed to support a large number of research studies. Biobanking of other specimen types include cells, RNA, serum, plasma and tissue. The Biorepository serves as a storage facility for tracking specimen inventory using bar code technologies. The Biorepository also conducts most operations using modern laboratory automation and robotics, an efficient way to avoid processing errors inherent in the handling of larger numbers of specimens.

Abbreviations: Feinstein Biorepository

Synonyms: North Shore-LIJ Biorepository, Feinstein Institute for Medical Research Biorepository

Resource Type: biomaterial supply resource, tissue bank, material resource

Keywords: dna, blood, cell, rna, serum, plasma, tissue

Funding:

Resource Name: Feinstein Biorepository

Resource ID: SCR_000535

Alternate IDs: nlx_67278

Record Creation Time: 20220129T080202+0000

Record Last Update: 20250522T055856+0000

Ratings and Alerts

No rating or validation information has been found for Feinstein Biorepository.

No alerts have been found for Feinstein Biorepository.
