ButterflyBase

RRID:SCR_000727

Type: Tool

Proper Citation

ButterflyBase (RRID:SCR_000727)

Resource Information

URL: <http://www.butterflybase.org>

Proper Citation: ButterflyBase (RRID:SCR_000727)

Description: An open-access Genomic Database for Lepidoptera. It includes all the Lepidoptera cDNA sequences available in NCBI's dbEST. Support for genomic-DNA sequences such as BACs and the Bombyx mori genome is being generated. Tools available on this website include BLAST search, Annotation search, Primer design, and Microsatellite repeat finders. Users can also download all data and sequences. Within the site, the Expressed Sequence Tag sequences are made with Trace2dbest from raw sequence data if available or downloaded from NCBI. We cluster them using PartiGene into gene-objects to reduce redundancy. Subsequently, we perform hierarchical BLAST searches to provide accurate similarity annotation and a robust protein translation protocol using prot4EST. Putative proteins objects have been further annotated with the Gene Ontology biological vocabulary (GO terms) and InterPro (EBI) domains to facilitate gene-hunters. The repository is open for all Lepidopteran researchers.

Synonyms: ButterflyBase

Resource Type: database, data or information resource

Defining Citation: [PMID:17933781](https://pubmed.ncbi.nlm.nih.gov/17933781/)

Keywords: bombyx mori, butterfly, moth, lepidoptera, lepidoptera cdna, lepidoptera genome

Funding:
