Description: Software package that functions as a de novo genome assembler based on the concept of string graphs. It is designed as a modular set of programs used to assemble large genomes from high coverage short read data.

Resource Type: Resource, software resource, data processing software, data analysis software, sequence analysis software, software application

References: DOI:10.1101/gr.126953.111

Keywords: string, graph assembler, de novo assembly

Availability: Open source

Website Status: Last checked up

Resource Name: SGA

Resource ID: SCR_001982

Alternate IDs: OMICS_00028
