IBIS: Inferred Biomolecular Interactions Server

RRID:SCR_004886 Type: Tool

Proper Citation

IBIS: Inferred Biomolecular Interactions Server (RRID:SCR_004886)

Resource Information

URL: http://www.ncbi.nlm.nih.gov/Structure/ibis/ibis.cgi

Proper Citation: IBIS: Inferred Biomolecular Interactions Server (RRID:SCR_004886)

Description: A web server and database that organizes, analyzes and predicts interactions between proteins and other biomolecules. For a given protein sequence or structure query, it reports protein-protein, protein-small molecule, protein nucleic acids and protein-ion interactions observed in experimentally-determined structural biological assemblies. It also infers/predicts interacting partners and binding sites by homology, by inspecting the protein complexes formed by close homologs of a given query. To ensure biological relevance of inferred binding sites, the IBIS algorithm clusters binding sites formed by homologs based on binding site sequence and structure conservation.

Abbreviations: IBIS

Synonyms: Inferred Biomolecular Interactions Server, NCBI Inferred Biomolecular Interactions Server

Resource Type: data or information resource, database

Defining Citation: PMID:22102591, PMID:19843613

Keywords: protein interaction, protein protein, protein small molecule, protein nucleic acid, protein ion interaction, interacting partner, binding site, homology, protein complex, structure conservation, nucleic acid, protein dna, protein rna, protein chemical, bio.tools

Funding:

Resource Name: IBIS: Inferred Biomolecular Interactions Server

Resource ID: SCR_004886

Alternate IDs: OMICS_01917, biotools:ibis_ncbi, nlx_85682

Alternate URLs: https://bio.tools/ibis_ncbi

Record Creation Time: 20220129T080227+0000

Record Last Update: 20250505T053608+0000

Ratings and Alerts

No rating or validation information has been found for IBIS: Inferred Biomolecular Interactions Server.

No alerts have been found for IBIS: Inferred Biomolecular Interactions Server.

Data and Source Information
