GOChase

RRID:SCR_005822
Type: Tool

Proper Citation

GOChase (RRID:SCR_005822)

Resource Information

URL: http://www.snubi.org/software/GOChase/

Proper Citation: GOChase (RRID:SCR_005822)

Description: GOChase is a set of web-based utilities to detect and correct the errors in GO-based annotations. # GOChase-History resolves the whole modification history of GO IDs. # GOChase-Correct highlights merged GO IDs and redirects to the correct primary term into which the secondary ID was merged. For obsolete GO terms, the nearest non-discarded parent term is recommended by GOChase. This function may be used by GO browsers such as AmiGO and QuickGO to fix broken hyperlinks. # A whole database (such as LocusLink) as a flat file can be loaded into GOChase, reporting the annotation errors and GOChase corrections. # When one inputs a GO ID, GOChase will resolve all gene products annotated with the GO ID across all the major databases. Platform: Online tool

Abbreviations: GOChase

Synonyms: GOChase: correcting errors from gene ontology-based annotations for gene products

Resource Type: data analysis service, service resource, production service resource, analysis service resource

Defining Citation: PMID:15513987

Keywords: other analysis, historical views of go, gene ontology, annotation

Funding: Ministry of Health and Welfare - Republic of Korea 0405-BC0206040004

Availability: Free for academic use

Resource Name: GOChase

Resource ID: SCR_005822

Alternate IDs: nlx_149324

Record Creation Time: 20220129T080232+0000

Record Last Update: 20250524T060053+0000

Ratings and Alerts

No rating or validation information has been found for GOChase.

No alerts have been found for GOChase.
