**Proper Citation:** BrainVoyager Brain Viewer (RRID:SCR\_006755)

**Description:** Software that supports browsing and inspecting essential BrainVoyager data files as well as the header and content of DICOM files. The Viewer supports standard image files (JPEG, GIF, PNG, TIFF, BMP) allowing to inspect snapshots, figures or photos. Users can prepare a folder with selected data of a subject (VMRs, SRFs, Maps, snapshot images), which allows participants of fMRI measurements to browse their brain data and to show it to others. The Viewer can be handed over to colleagues not having a BrainVoyager license together with relevant data. This will allow them to view and explore your analyzed data files.
