CellProfiler Image Analysis Software (RRID:SCR_007358)

**Resource Information**

**URL:** [http://cellprofiler.org](http://cellprofiler.org)

**Proper Citation:** CellProfiler Image Analysis Software (RRID:SCR_007358)

**Description:** Software tool to enable biologists without training in computer vision or programming to quantitatively measure phenotypes from thousands of images automatically. It counts cells and also measures the size, shape, intensity and texture of every cell (and every labeled subcellular compartment) in every image. It was designed for high throughput screening but can perform automated image analysis for images from time-lapse movies and low-throughput experiments. CellProfiler has an increasing number of algorithms to identify and measure properties of neuronal cell types.

**Synonyms:** Cell Profiler, CellProfiler - cell image analysis software

**Resource Type:** data processing software, image analysis software, software application, software resource

**Keywords:** high-throughput, high content imaging, software, image, cell, phenotype, measurement, subcellular, intensity, size, shape, analysis, algorithm

**Funding Agency:** NIGMS, NIGMS, NHGRI

**Availability:** Free, Available for download, Freely available

**Resource Name:** CellProfiler Image Analysis Software

**Resource ID:** SCR_007358
Alternate IDs: nif-0000-00280, nlx_66812, SCR_010649, SCR_010649, nlx_66812
