Proper Citation: Institute for Basic Research in Developmental Disabilities (RRID:SCR_008806)

Description: A research arm of the New York State Office for People with Developmental Disabilities (OPWDD), which conducts basic and clinical research into the causes, treatment, and prevention of intellectual disabilities and other developmental disabilities. The goals of the IBR's research, services and education program are designed to provide prevention, earlier detection, and improved treatment of intellectual disabilities and other developmental disabilities. This research program has a total of 46 laboratories over 7 departments. These programs include the George A. Jervis Clinic (a tertiary-level diagnostic and research clinic), the Specialty Clinical Laboratories (conduct specialty testing for genetic, metabolic, neurodegenerative disorders), and the Comprehensive Genetic Disease Program at Richmond County (provides genetics and genetic counseling services). This institute provides educational activities in the graduate studies program, and the Programs in Developmental Neuroscience and Developmental Disabilities (PDNDD). The PDNDD collaborates with the faculty from the City University of New York and the State University of New York. The IBR staff regularly conducts public education workshops and professional seminars about developmental disabilities.

Abbreviations: IBR, NYS IBR, NYS-OPWDD IBR

Synonyms: NYS-OPWDD: Institute for Basic Research in Developmental Disabilities, New York State Institute for Basic Research in Developmental Disabilities

Resource Type: brain bank, biomaterial supply resource, material resource, tissue bank

Keywords: brain tissue, brain, tissue, developmental disability, late adult human, alzheimer's disease, autism, fragile x syndrome, taurine, fetal alcohol syndrome, batten disease, phenylketonuria, fetal development, down's syndrome, infant, development, biochemistry, neurobiology, genetics, molecular biology, neurochemistry, psychology, neuroscience

Related Condition: Developmental disability, Aging
