Proper Citation: Task Independent Fluctuations Discussion (RRID:SCR_009515)

Description: The methodology and applications of task independent fluctuation measures including: connectivity maps of fMRI resting state scans, research using EEG/MEG/PET etc, methods to remove non-neural fluctuations, and applications to clinical populations.

Abbreviations: Task Independent Fluctuations Discussion

Resource Type: narrative resource, data or information resource, software resource, discussion

Keywords: community, information resource, knowledge environment, model, magnetic resonance, other software resource, web environment, fmri, fmri resting state, eeg, meg, pet, non-neural fluctuation, clinical

Resource Name: Task Independent Fluctuations Discussion

Resource ID: SCR_009515

Ratings and Alerts

No rating or validation information has been found for Task Independent Fluctuations Discussion.
