Proper Citation: IIT Human Brain Atlas (RRID:SCR_009587)

Description: Atlas that contains new anatomical, DTI, HARDI templates and probabilistic gray matter labels of the adult human brain in ICBM-152 space. Artifact-free MRI data from 72 human subjects was used in the development of the atlas. All diffusion MRI data collection was conducted using Turboprop, and spatial normalization was accomplished in a population-based fashion. A description of the contents of the atlas can be found in the Downloads link. NOTE: The files of the older IIT2 DTI Brain Template are still available. However, the new DTI template of the IIT Human Brain Atlas (v.3) is of superior quality and allows more accurate registration across subjects.

Resource Type: Resource, atlas, reference atlas, data or information resource

References: PMID:21218175

Keywords: atlas data, magnetic resonance, adult human, dti

Parent Organization: Illinois Institute of Technology; Illinois; USA

Availability: Other/Commercial license License, Http://www.iit.edu/~mri/Downloads.html

Website Status: Last checked up

Abbreviations: IIT Human Brain Atlas

Resource Name: IIT Human Brain Atlas
Ratings and Alerts

No alerts have been found for IIT Human Brain Atlas.
