Proper Citation: Penn Mass Spectrometry Facility (RRID:SCR_010021)

Description: Core facility that provides the following services: Mass spectrometer access. The Mass Spectrometry Facility is part of the Shared Instrument Facilities of the Department of Chemistry. It provides low and high resolution mass spectra to Penn Chemistry and to other research groups throughout the university community for the determination of elemental composition and purity of a wide variety of compounds. Investigators interested in using the facility are encouraged to call and discuss their project. Usage fees will be quoted at this time. Fees depend upon the instrument involved in the analysis, complexity of the project, training, etc.

Resource Type: core facility, access service resource, service resource

Keywords: gas chromatography-mass spectrometry, chemical ionization mass spectrometry
