Proper Citation: UPR Flow Cytometry Unit (RRID:SCR_010126)

Description: Core facility that provides the following services: Training in the use of FACSort instrumentation, Flow cytometry consulting service. The specific objectives of this unit are to provide access to flow cytometry technology resources to investigators, students, and technical personnel; to train users in the utilization of flow cytometry; instrumentation and in its multiple applications in biological research; to provide basic technical support in flow cytometry methodology to interested users of the facility, and to encourage the development of new methodology and applications in the area of flow cytometry. Provides specialized seminars in flow cytometry basic and clinical applications.

Resource Type: access service resource, core facility, service resource

Keywords: fluorescence activated cell sorting (facs), flow cytometry assay
