Proper Citation: Trellis (RRID:SCR_013819)

Description: A collaboration tool designed specifically for scientists as a place to collaborate and engage in activities with others. Users can create and manage a professional profile, meet new people and build their professional network, find the latest news and updates in science, participate in online conversations, upload and manage documents, and host a journal club, a live chat-based Q&A, or a presentation series.

Synonyms: Trelliscience

Resource Type: collaboration tool, software resource

Keywords: collaboration tool, social network, collaborate, researcher, networking
