Proper Citation: High-quality diffusion-weighted imaging of Parkinsons disease (RRID:SCR_014121)

Description: A project which contains data and analysis pipelines for a set of 53 subjects in a cross-sectional Parkinsons disease (PD) study. The dataset contains diffusion-weighted images (DWI) of 27 PD patients and 26 age, sex, and education-matched control subjects. The DWIs were acquired with 120 unique gradient directions, b=1000 and b=2500 s/mm2, and isotropic 2.4 mm3 voxels. The acquisition used a twice-refocused spin echo sequence in order to avoid distortions induced by eddy currents.

Resource Type: Resource, data set, data or information resource

Keywords: data set, parkinson, diffusion weighted image

Availability: Public, Available to the research community

Website Status: Last checked up

Resource Name: High-quality diffusion-weighted imaging of Parkinsons disease

Resource ID: SCR_014121

Alternate URLs:
No rating or validation information has been found for High-quality diffusion-weighted imaging of Parkinson's disease.

No alerts have been found for High-quality diffusion-weighted imaging of Parkinson's disease.
