Topographica

RRID:SCR_014174

Type: Tool

Proper Citation

Topographica (RRID:SCR_014174)

Resource Information

URL: <http://www.nitrc.org/projects/topographica/>

Proper Citation: Topographica (RRID:SCR_014174)

Description: A software package for computational modeling of neural maps developed as part of the NIMH Human Brain Project. Topographica focuses on the large-scale structure and function that is visible only when many thousands of such neurons are connected into topographic maps containing millions of connections. The software package provides a general-purpose framework for building models at this level, at an appropriate level of detail and complexity, as determined by the available computing power, phenomena of interest, and amount of biological data available for validation. It is intended to complement low-level neuron simulators that are available, such as General Neural Simulation System and NEURON.

Resource Type: simulation software, software resource, software application

Keywords: computational modeling, neural map, simulation software, neuron

Funding: NIMH Human Brain Project 1R01-MH66991

Resource Name: Topographica

Resource ID: SCR_014174

License: BSD License

Record Creation Time: 20220129T080319+0000

Record Last Update: 20250401T061043+0000

Ratings and Alerts

No rating or validation information has been found for Topographica.

No alerts have been found for Topographica.
