**Resource Information**

**URL:** [https://github.com/common-workflow-language/cwltool](https://github.com/common-workflow-language/cwltool)

**Description:** Reference implementation of the Common Workflow Language standards. It provides complete features and tools and comprehensive validation of CWL. The reference implementation consists of two packages. The cwltool package is the primary Python module containing the reference implementation in the cwltool module and console executable by the same name. The cwlref-runner package is optional and provides an additional entry point under the alias cwl-runner, which is the implementation-agnostic name for the default CWL interpreter installed on a host.

**Resource Name:** cwltool

**Proper Citation:** cwltool (RRID:SCR_015528)

**Resource Type:** Resource, software resource, software toolkit, source code

**Keywords:** language, reference implementation, python

**Resource ID:** SCR_015528

**Availability:** Available for download

**Website Status:** Last checked up

**Mentions Count:** 2
