**Resource Information**

**URL:** [https://abcdstudy.org](https://abcdstudy.org)

**Proper Citation:** ABCD Study (RRID:SCR_015769)

**Description:** Long-term study of brain development and child health in the United States. The study tracks subjects' biological and behavioral development through adolescence into young adulthood to determine how childhood experiences (such as sports, videogames, social media, unhealthy sleep patterns, and smoking) interact with each other and with a child’s changing biology to affect brain development and social, behavioral, academic, health, and other outcomes.

**Resource Type:** Resource, data set, data or information resource

**References:** [PMID:29051027](https://www.ncbi.nlm.nih.gov/pubmed/29051027)

**Keywords:** clinical study, adolescent, development, research, neuroimaging, brain development

**Funding Agency:** NIDA

**Related resources:** DEAP - Data Exploration and Analysis Portal

**Availability:** Available to the scientific community

**Website Status:** Last checked up

**Abbreviations:** ABCD

**Resource Name:** ABCD Study
