Description: Perl software for transcription factor binding site detection and analysis. It implements classes for the representation of objects encountered in analysis of these protein-binding sites.

Resource Type: Resource, software resource, software application, data analysis software, data processing software

References: PMID:12176838

Keywords: protein-binding, transcription factor, factor binding, binding site detection, transcription analysis, perl, bio.tools

Availability: Free, Available for download, No longer in development

Website Status: Last checked up

Resource Name: TFBS

Resource ID: SCR_015774

Alternate IDs: biotools:tfbs
