Canu

RRID:SCR_015880
Type: Tool

Proper Citation

Canu (RRID:SCR_015880)

Resource Information

**URL:** https://github.com/marbl/canu

**Description:** Software for scalable and accurate long-read assembly via adaptive k-mer weighting and repeat separation. Canu is a fork of the Celera Assembler and is designed for high-noise single-molecule sequencing (such as the PacBio RS II/Sequel or Oxford Nanopore MinION).

**Resource Name:** Canu

**Proper Citation:** Canu (RRID:SCR_015880)

**Resource Type:** Resource, software resource, data processing software, data analysis software, sequence analysis software, software application

**Keywords:** long-read, assembly, k-mer, weighting, repeat separation, adaptive, pacbio, single-molecule, sequencing

**Resource ID:** SCR_015880

**Funding Agency:** National Human Genome Research Institute, National Science Foundation, US Department of Homeland Security (DHS)

**Related resources:** Celera assembler

**References:** PMID:28298431

**Availability:** Free, Available for download

**Website Status:** Last checked up
Ratings and Alerts

No rating or validation information has been found for Canu.

No alerts have been found for Canu.
