Proper Citation: Arden (RRID:SCR_015975)

Description: Software for specificity control of read alignments using an artificial reference. It estimates error rates based on real experimental reads and an additionally generated artificial reference genome. It can be used to optimize parameters for read mappers, to select read mappers for a specific problem or also to filter alignments based on quality estimation.

Resource Type: Resource, image analysis software, data processing software, source code, alignment software, software application, software resource, software toolkit

References: PMID:23685787

Keywords: software, alignment, artificial, reference, estimate, error, genome, false, positive, next, generation, sequencing, DNA, python

Funding Agency: Robert Koch-Institute (RKI)

Availability: Free, Freely available

Website Status: Last checked up

Resource Name: Arden

Resource ID: SCR_015975
