Fsm-lite

RRID:SCR_016115
Type: Tool

Proper Citation

Fsm-lite (RRID:SCR_016115)

Resource Information

URL: https://github.com/nvalimak/fsm-lite

Proper Citation: Fsm-lite (RRID:SCR_016115)

Description: Software application as a single-core implementation of frequency-based substring mining. It can be used in bioinformatics to extract substrings that discriminate two (or more) datasets inside high-throughput sequencing data.

Synonyms: fsm, Frequency-based String Mining, Frequency-based String Mining (lite)

Resource Type: software resource, software application, data analysis software, data processing software

Keywords: protein, dna, rna, sequence, analysis, core, implementation, frequency, based, substring, mining, extract, discriminate, dataset, sequencing, high throughput

Funding:

Availability: Free, Available for download

Resource Name: Fsm-lite

Resource ID: SCR_016115

Alternate IDs: OMICS_28406

Alternate URLs: https://sources.debian.org/src/fsm-lite/

License: GNU General Public License v3.0

Record Creation Time: 20220129T080328+0000

Record Last Update: 20250407T220310+0000

Ratings and Alerts

No rating or validation information has been found for Fsm-lite.

No alerts have been found for Fsm-lite.

Data and Source Information
