Brain Imaging Data Structure (BIDs)

RRID:SCR_016124

Type: Tool

Proper Citation

Brain Imaging Data Structure (BIDs) (RRID:SCR_016124)

Resource Information

URL: <http://bids.neuroimaging.io>

Proper Citation: Brain Imaging Data Structure (BIDs) (RRID:SCR_016124)

Description: Standard specification for organizing and describing outputs of neuroimaging experiments. Used to organize and describe neuroimaging and behavioral data by neuroscientific community as standard to organize and share data. BIDS prescribes file naming conventions and folder structure to store data in set of already existing file formats. Provides standardized templates to store associated metadata in form of Javascript Object Notation (JSON) and tab-separated value (TSV) files. Facilitates data sharing, metadata querying, and enables automatic data analysis pipelines. System to curate, aggregate, and annotate neuroimaging databases. Intended for magnetic resonance imaging data, magnetoencephalography data, electroencephalography data, and intracranial encephalography data.

Abbreviations: BIDS

Synonyms: Brain Imaging Data Structure, BIDS, Brain Imaging Data Structure (BIDS), Brain Imaging Data Structure v1.4.0

Resource Type: narrative resource, portal, data or information resource, standard specification

Defining Citation: [PMID:27326542](#), [PMID:29917016](#), [PMID:31239435](#), [PMID:31239438](#), [PMID:37744469](#)

Keywords: Data storing structure, neuroimaging, standardized template, data sharing, MRI data, MEG data, EEG data, iEEG data, FASEB list

Funding: International Neuroinformatics Coordinating Facility ;

Laura and John Arnold Foundation ;
NIGMS P20 GM103472;
Wellcome Trust ;
NIAAA U01 AA021697;
NIMH Intramural Research Program ;
