## Mononucleotide Repeat Frameshift Portal

RRID:SCR\_021125

Type: Tool

### Proper Citation

Mononucleotide Repeat Frameshift Portal (RRID:SCR\_021125)

### Resource Information

**URL:** <http://www.morf-brain.com/>

**Proper Citation:** Mononucleotide Repeat Frameshift Portal (RRID:SCR\_021125)

**Description:** Portal devoted to suite of MORF reporter mice labels of Cre positive neurons and glia distributed stochastically throughout brain and can be imaged with endogenous fluorescence (mNeonGreen in MORF1 and EGFP in TIGRE-MORF) or stained for multivalent immunoreporter (Spaghetti Monster fluorescent protein V5, or smFP-V5, in MORF3). MORF technology used to label and reconstruct thousands genetically defined cells per brain for large scale, unbiased classification and quantitative analyses of CNS cell types brainwide.

**Abbreviations:** MORF

**Synonyms:** MOnonucleotide Repeat Frameshift, MORF portal

**Resource Type:** portal, organization portal, data or information resource

**Defining Citation:** [PMID:32795398](https://pubmed.ncbi.nlm.nih.gov/32795398/)

**Keywords:** Sparsely label genetically defined neuronal populations, reporter mouse lines, Cre-dependent sparse cell labeling methodology, MORF stochastic translational switch, integrating molecular, morphological properties, connectomic properties, unbiased classification, neuronal cell types, brain

**Funding:**

**Availability:** Free, Freely available

**Resource Name:** Mononucleotide Repeat Frameshift Portal

**Resource ID:** SCR\_021125

**Record Creation Time:** 20220129T080353+0000

**Record Last Update:** 20250412T060315+0000
